

## Standard Incentives

Evergy offers a wide range of incentives designed to help our Missouri business customers achieve energy savings by reducing the upfront cost of installations. Our Standard Incentives provide savings for energy-efficient equipment upgrades on a one-for-one basis, making it quick and easy to save money and energy. For projects with an anticipated incentive amount of \$10,000 or less, simply apply after equipment purchase and installation to receive a fast incentive check. For projects in excess of \$10,000, pre-approval must be obtained before equipment purchase. Projects completed after December 31, 2022 are subject to 2023 incentive amounts.
