

SUSTAIN AND Project Living Proof 2025 Renovations **INSPIRE**

Where cutting-edge sustainability meets home inspiration—join us in transforming how Kansas City lives and thrives.

OVERVIEW

Project Living Proof is a historic home, a native garden, hands-on classrooms, and a beacon of sustainable living in Kansas City. Here, visitors discover how to integrate energy-saving solutions seamlessly into their lives—whether through solar-powered tech, energy efficiency, or urban food production. As a hands-on learning center, Project Living Proof (PLP) prepares every visitor to make informed, eco-friendly choices that are applicable universally—from urban apartments to suburban homes.

2025 RENOVATIONS – FUNDING PRIORITIES

\$151,000 Total Goal divided across essential enhancements:

- **\$54,000 FOR UPDATES AND REPAIRS:** Safeguarding PLP’s structure—roof, gutters, chimneys, and more—to return the home to its intended hosting and educating.
- **\$75,000 FOR TECHNOLOGICAL AND APPLIANCE UPGRADES:** From geothermal heating solutions to advanced electrical systems, modernizing and extending demonstrations of cutting-edge, sustainable home technology.
- **\$22,000 FOR INTERIOR AND EVENT SPACE OPTIMIZATION:** Enhancing learning environments and event spaces to host more workforce development sessions and community engagements, making sustainability accessible to all.

YOUR IMPACT

Every contribution ensures PLP remains a pivotal resource for eco-education in Kansas City. Your support empowers us to maintain this unique site, where every visit inspires actions that contribute to a healthier planet. Join us to make a lasting impact – you’ll not only help strengthen PLP, you’ll ignite change across communities, fostering a sustainable future for all.
